

# Accounting Skills for the New Supervisor

## Course Overview

**\$338**

In this two-day workshop, you will learn important accounting skills and concepts that will help you succeed as a supervisor in today's business world. Terms like depreciation, cash flow, balance sheets, budgets, and other financial terms will no longer seem scary.

During this two-day workshop, you will learn:

- The art of finance and financial management
- Key financial terms
- Your role in company finances and where to find the rules and regulations for your area and industry
- Various types of financial reports
- Chart of accounts and budgets
- Cash and accrual accounting
- Single and double entry bookkeeping
- Debits and credits
- How to identify and analyze important financial data
- Different types of organizational financial plans
- What computer skills you need to become a financial whiz
- How to deal with financial situations that impact the people that work for you
